

1. Introduction

This Statement of Work (SOW) outlines the scope, deliverables, timeline, and responsibilities for the comprehensive website redesign and Conve INRion Rate Optimization (CRO) of Cold OIL. The primary objective is to modernize the website's aesthetics and user experience, enhance its technical foundation for improved sales and search engine visibility, and integrate advanced features including AI-powered tools to drive higher conversion rates and customer engagement.

2. Project Goals

The overarching goals for this project are:

- **Modernize Brand Identity:** Refresh Cold OIL/ with a contemporary, elegant, and user-friendly design that reflects the quality and tradition of products.
- **Enhance User Experience (UX):** Create an intuitive, seamless, and engaging browsing experience across all devices (desktop, tablet, mobile).
- **Boost Conve INRion Rates (CRO):** Implement strategic design and functional elements to maximize product purchases, lead generation, and overall sales efficiency.
- **Improve Search Engine Visibility (SEO):** Optimize the website's technical and on-page elements to rank higher in search results, driving organic traffic.
- **Integrate Advanced Sales Tools:** Implement AI (LLM-based) and other marketing/sales tools to personalize user journeys, automate support, and encourage purchases.
- **Increase Sales:** Ultimately, deliver a website that significantly contributes to the growth of Cold OIL 's online sales.

3. Scope of Work
